nondik arkitektura eta hezkuntza biltzen dituen espazioa da. Pertsonen bizi-kaliatea hobetzeko helburuarekin, inguratzen gaituzten espazioak eraldatzeko estrategiak garatzen ditu, eta hezkuntza-eraikinetan espezializatzen da.

nondik azken emaitzaren aurreiritzi eta irudi oro baztertuz, sortze-prozesuan oinarritzen den lan-metodologia da. Egin beharreko galderak zeintzuk diren argituz, sormenean eta esperimentazioan oinarrituta ekiten zaio hobekuntzarako bideari. Erabiltzaileak dira proiektu ororen funtsa, eta erantzun anitzak bilatu nahian, jakintza-alor ezberdinetako adituen elkarlana sustatuz sortzen dira prozesu bakoitzerako lan-taldeak.

nondik galdera globaletan oinarritzen da tokian tokiko erantzunak aurkitzeko. Nondik galdetzen denean, “zein lekutatik” edo “zein bidetatik” esan nahi da: etorkizunera begira aurrerapauso bat eman ahal izateko, bide ibiliek utzitako arrastoaren garrantzia aintzakotzat hartzea ezinbestekoa izanik.
